

The Great Easter Bunny Race

Each year, 4 rabbits compete in a race and the winner gets to be the Easter Bunny. This year, there are 9 posts in a row, each 5 metres apart. The race starts at the 1st post and finishes at the 9th post. The 4 rabbits are as follows:

<p>Hoppity</p>  <p>Hops 1m</p> <p>Rests every 3 hops</p>	<p>Moppity</p>  <p>Hops 2m</p> <p>Rests every 2 hops</p>	<p>Cloppity</p>  <p>Hops 4m</p> <p>Rests every hop</p>	<p>Fred</p>  <p>Hops 0.5m</p> <p>Doesn't need a rest</p>
---	--	---	---

All rests and hops take 1 second.

Exactly how long will it take each rabbit to finish the race?

Who will get to be the Easter bunny this year?
